Subject: FW: SOR Weekly SITREP - Friday, February 4 to Thursday, February 10, 2022
Importance: High

Here you are Stuart – please see below.

Thank you,

Mike

SOR: Weekly Highlights for Friday, February 4 to 10, 2022:

- * From Friday, February 4 to Thursday, February 10, 2022, SOR processed 96,319 conveyances and 115,306 travellers, **accounting for approximately 51% of all CBSA conveyances and 27% of all CBSA travellers processed (all modes)**. Overall, there was a **1% decrease** in SOR conveyance volumes when compared with the previous 7-day period in 2022 (**755 fewer** conveyances). **This decrease, may be attributed to the closure of Canada bound traffic at Ambassador Bridge due to the "Freedom Convoy" demonstrations taking place in the Windsor corridor.**
- **Over the past 7 days, SOR referred 124 travellers with positive PCR tests a 31% decrease over the previous week – when 181 travellers were referred.**

- * Over the past 7 days, the Border Wait Time Application captured **200 instances** of border wait times above service standard, with 110 delays captured in Traveller Operations, and 90 delays captured in Commercial Operations. There were **100 (60+) minute delays – 19** in Traveller Operations, and 81 in Commercial Operations. In addition to these delays, there were several recorded border wait times across SOR POEs, however, these wait times were not above service standards. CBSA Border Wait Time Service Standards: Traveller Operations – **over 10 minutes/20 (Friday, Sat, Sun & Holidays)**, and Commercial Operations – **over 45 minutes**.
